THE REPLY FILED 25 February 2002 FAILS TO PLACE THIS APPLICATION IN CONDITION FOR ALLOWANCE. Therefore, further action by the applicant is required to avoid abandonment of this application. A proper reply to a

condit	ejection under 37 CFR 1.113 may <u>only</u> be either: (1) a timely filed amendment which places the application in ion ion for allowance; (2) a timely filed Notice of Appeal (with appeal fee); or (3) a timely filed Request for Continued ination (RCE) in compliance with 37 CFR 1.114.
	PERIOD FOR REPLY [check either a) or b)]
a) [The period for reply expiresmonths from the mailing date of the final rejection.
b) 🗵	The period for reply expires on: (1) the mailing date of this Advisory Action, or (2) the date set forth in the final rejection, whichever is later. have bed 37 CFR (b) abov	tensions of time may be obtained under 37 CFR 1.136(a). The date on which the petition under 37 CFR 1.136(a) and the appropriate extension fee en filed is the date for purposes of determining the period of extension and the corresponding amount of the fee. The appropriate extension fee under 1.17(a) is calculated from: (1) the expiration date of the shortened statutory period for reply originally set in the final Office action; or (2) as set forth in e, if checked. Any reply received by the Office later than three months after the mailing date of the final rejection, even if timely filed, may reduce any patent term adjustment. See 37 CFR 1.704(b).
	A Notice of Appeal was filed on Appellant's Brief must be filed within the period set forth in 37 CFR 1.192(a), or any extension thereof (37 CFR 1.191(d)), to avoid dismissal of the appeal.
2.🔯	The proposed amendment(s) will not be entered because:
(a)	they raise new issues that would require further consideration and/or search (see NOTE below);
(b)	they raise the issue of new matter (see Note below);
(c)	they are not deemed to place the application in better form for appeal by materially reducing or simplifying the issues for appeal; and/or
(d)	they present additional claims without canceling a corresponding number of finally rejected claims.
	NOTE: See Continuation Sheet.
3.	Applicant's reply has overcome the following rejection(s):
4.	Newly proposed or amended claim(s) would be allowable if submitted in a separate, timely filed amendment canceling the non-allowable claim(s).
5.🛛	The a) affidavit, b) exhibit, or c) request for reconsideration has been considered but does NOT place the application in condition for allowance because: See Continuation Sheet.
6.	The affidavit or exhibit will NOT be considered because it is not directed SOLELY to issues which were newly raised by the Examiner in the final rejection.
7.🛛	For purposes of Appeal, the proposed amendment(s) a) will not be entered or b) will be entered and an explanation of how the new or amended claims would be rejected is provided below or appended.
	The status of the claim(s) is (or will be) as follows:
	Claim(s) allowed:
	Claim(s) objected to:
	Claim(s) rejected: 38,40,42-47,49,52-63,65, and 68-98.
	Claim(s) withdrawn from consideration:
8.	The proposed drawing correction filed on is a) _ approved or b) _ disapproved by the Examiner.
9.	Note the attached Information Disclosure Statement(s)(PTO-1449) Paper No(s)
10.	Other:

Application No.

Continuation of 2. NOTE: A new issue which requires further consideration and/or search is a change of scope in the claims from "comprising" to "consisting of". Also, proposed new claim 79 requires further consideration under 112, second because the claim contains improper Markush format. It cannot be discerned whether claim 79 is drawn to the composition comprising individual polypeptides, which would also be considered new matter, or if the composition comprises all polypeptides listed in the claims.

Continuation of 5. does NOT place the application in condition for allowance because: Arguments presented in the request have already been addressed.
